CHARLES B. RYAN, G. P. A.,  
Portsmouth, Va.

W. E. CHRISTIAN, A. G. P. A.,  
Atlanta, Ga.

Sweet as sunlight.

As the air passes through a refrigerator once it absorbs food odors that make it unfit to circulate again. Yet in the ordinary refrigerator it does re-circulate; passing over the food again and again, contaminating milk, butter, etc., and making food compartments smell musty. In the "Odorless" this odor-charged air is not permitted to flow through the box twice. The fresh air enters the ice chamber, and freezing cold drops to the bottom of the box; passes over the butter and milk while perfectly pure; then travels up over the other dishes—a system insuring the circulation of a constantly renewed current of pure, fresh, food air through

## ODORLESS Refrigerators.

This patented system of ventilation makes the "Odorless" the only refrigerator that may be crowded with a variety of dishes without one tasting of another—creates a stone-cold, even temperature. Let us show you the latest "Odorless" styles—solid oak cases.

Calvert & Nickles.

**Old Chronic Sores.**  
As a dressing for old chronic sores there is nothing so good as Chamberlain's Salve. While it is not advisable to heal old sores entirely, they should be kept in a good condition for which this salve is especially valuable. For sale by C. A. Milford and H. M. Young, Due West.

### THE DIET QUESTION.

Eat What You Like, What Agrees With You, but Eat Slowly.

That instinct is a much better guide to diet than faulty reasoning is the conclusion of Dr. Woods Hutchinson, writing on dietetic fads in McClure's Magazine. Here are some of his findings condensed: Men should eat what they like and a good deal of it. "Given our age, sex, size, horsepower and the work to be done, the suitable fuel is only a question of cost and accessibility."

Fish is no richer in phosphorus than many other foods. Even if it were it would not therefore be "good for the brain," as some suppose.

Spices do not "heat the blood." That notion confounds the "hot" taste with actual heat. Spices are antiseptic. The Egyptians preserved mummies in spices. In tropical countries people eat more spices than in cold ones, and the diet does them good. Pork is all right. It digests slowly, but that is an advantage. The more rapidly digested foods are not the most healthful. The digestive machinery must have work to do like the rest of the body.

Vegetarianism is "the diet of the enslaved," a diet rich in meat is that of the dominant races.

Few people who eat much meat ever become consumptive. "Tuberculosis sweeps like a pestilence through the grass and grain eaters—cattle, antelopes, chickens, pheasants, turkeys—but is decidedly rare among meat eaters—dogs, cats, tigers, lions, civets, badgers, hawks, eagles, crows."

Breakfast foods are well enough if you must have them, but "be sure and eat your breakfast first." White bread is the best, most healthful and most nutritious food which the sun has ever grown from the soil. "Wheat has always been the fiercest for the possession of the great wheat growing plains. No nation eats bread when it can get white. Instinct is here also correct. Whole wheat meal, or 'graham,' contains more nitrogen than white but the white has more 'available' nitrogen."

"Mush makes a superb 'sour mash' in a weak stomach." "The tortures of the chronic dyspeptic are aggravated and in many cases chiefly caused by the very foods which he takes for their cure." The chief value of "mush and milk" (meaning also other coarse cereal foods) is in the milk and sugar. Eat slowly, eat what you like, what agrees with you and as much as you need, seems to be Dr. Hutchinson's idea.

We have a few nice hand bags for ladies which we are closing out at cost, Speeds Drug Store.

### Denatured Alcohol.

The denatured alcohol bill recently passed by congress and sent to the president for his signature is more far reaching in its effects than the public generally imagine.

Denatured alcohol is alcohol mixed with a sufficient quantity of methyl mixtures to destroy its use as a beverage or basis for drinks or medicinal purposes, says a Washington special to the New York World. It can be made from any grain, the refuse of sugar beet factories, potatoes, fruits, cane and cassia. Grain alcohol now pays an internal revenue tax of \$2.07 a gallon. Denatured alcohol will pay no tax. Its advocates expect that it can be manufactured and sold as low as \$2 a ton. One bushel of corn costing not more than 40 cents, will make five gallons of alcohol. Illuminating oil costs from 16 cents a gallon, and denatured alcohol can be manufactured to sell at from 8 to 10 cents a gallon.

The advocates of denatured alcohol expect that it will revolutionize heating, lighting and power generation. They expect it will give farmers a new and better market for grains, sugar beets, cane and other products from which alcohol can be made. They also expect it to—

Supplant gasoline and naphtha in generating power for automobiles, launches and small engines. Supplant kerosene as an illuminant, because it does not vitiate the air, and there is less danger of explosions. Cheapen naphtha, gasoline and illuminating oils.

Cheapen paints, varnishes and perfumery. Increase the manufacture and sale of alcohol lamps and chafing dishes. Cheapen the cost of alcohol used in the arts.

Experts say that denatured alcohol will either force the Standard Oil monopoly to reduce the price of gasoline or will displace gasoline altogether.

Alcohol is a much cleaner fuel and is very much less dangerous. Gasoline mixed with a certain amount of air forms a low gas which is highly explosive. Denatured alcohol will, but it will not explode except under compression. Over 500 gallons may be made from an acre of potatoes. It may be denatured by the application of any one of a half dozen cheap chemical elements.

It is as pleasant and natural for a man to smoke Speeds Cigars as it is for a goose to go barefooted. If you want a razor strap go to Speeds Drug Store.

All the ladies should see L. W. White's silks for waists and skirts, also the beautiful line of muslins, lawns and organdies.

You can get anything you want in the soft drink line cold at Milford's Drug Store.

### EAST END.

#### IN AND ABOUT THE CITY.

At last through the indefatigable energy and perseverance of the ladies we are to have a Confederate Monument in our old historic city and as the foundation is being laid we presume suggestions are in order. We are glad it was moved into the center of the public square just where we think it should be, and now that it is settled, we would most respectfully suggest that a nice park surround the Monument say 40 or 50 feet from its base on each side making a square with four gates and enclosed by a neat wire fence, what say the ladies; or their committee, don't you think this would be pretty?

Mr. H. DuPre, Cashier of the Farmer's Bank, returned home last Sunday from a delightful trip to Old Point Comfort and other points of interest where he has been enjoying himself for several weeks.

Mr. Willie DuPre of this city has been entertaining the past week at a house party. The following ladies were the fair guests: The Misses Wells of Greenwood and the Misses Andrews of Virginia.

Mrs. Jennie Plunkney and her daughter Miss Sue of Anderson are visiting relatives in the city.

Miss Mable Blount of Augusta, Ga., is the guest of her sister, Mrs. Dendy Miller.

Miss Lillian Gambrell returned from a delightful trip to friends in Arkansas.

Miss Jennie Mae Dunn of Ocala, Fla., is here visiting her grandfather Mr. Nance.

Misses Ellen and Alma Gambrell are off for a summer's outing to Hendersonville, N. C., and other points of interest.

Mr. and Mrs. G. H. Hammond of Greenwood spent Sunday in the city.

Miss Nellie Edwards is home for a summer's rest from her business in Lexington, S. C.

Rev. J. M. Lawson preached a good practical sermon in the Methodist church last Sunday morning to a fine and attentive congregation.

Mr. Calhoun DeBrui, the hustling clerk in the city post office is sick again but it is hoped his sickness will not be serious and he will soon return to his business where he is greatly missed.

**SUNNY SLOPE PICNIC.**  
The day was fine and a large crowd was present, estimated at from 1000 to 1500. A fine basket dinner was served and candidates and people had a splendid time.

Senator Tillman made a fine speech, but he could not have done otherwise as he had for his theme the "State dispensary" and Mr. J. Fraser Lyon. "Any candidate who could not deliver a fine speech on these two popular subjects should quit the hustling."

The Hon. Wyatt Aiken was present and entertained the people in his usual, good and pleasing style, dealing out to them words of wisdom and truth. Congressman Aiken is wide awake to the interests of the people in the rural districts, in securing for them equal rights and privileges with the city folk in regard to mail facilities and is pushing the "good roads" question everywhere and in all quarters.

Some one has said if you want to gain your point, "keep it before the people," this is what Col. Aiken is doing and has been doing all the while, and his constituents should be proud of his efforts and the good work he has accomplished in their behalf.

Mr. Egge, candidate for Congress from 3rd district entertained the crowd and was well and most favorably received. We caught these three candidates on the fly and didn't have time to hear if any others spoke as the young man who told us was with his "sweet heart" and couldn't tell whether any others spoke or not, so we of course excused him and thanked him for the information he so kindly gave us.

The many friends of Mr. J. Fraser Lyon are proud to see the "cavalcade" given him while on the campaign. He is a high toned, sensible man of honest heart and purpose, and is capable and efficient to discharge the duties of any office to which he will aspire, and is of any office to which he will aspire, and is sure not to betray the confidence of those who honor him with their suffrage.

Mr. A. W. Jones is also meeting with expressions of the highest commendation from the people everywhere for the fearless and excellent work he has done for the State, and hope he will be re-elected to the office in which he has, and is now so faithfully serving the interests of the State and her people.

Mrs. S. M. Silver died at Nashville, Tenn., last Monday morning where she has been under special treatment for some time. Mrs. Silver was the wife of Mr. Sam Silver one of the engineers on the Seaboard Air Line who resided in this city for several years where they had many friends who tender their sincere sympathy to the bereaved husband and family.

Mr. and Mrs. Lambert Caldwell with their little son are spending a while with relatives in Greenville.

Mr. and Mrs. A. J. Penney with Mr. W. E. Penney spent last Sunday with Mr. John H. Penney at Sharon.

**DEATH OF MR. R. W. CANNON.**  
Mr. Robert W. Cannon after a protracted illness died at his home in this city last Wednesday morning about 10 o'clock, July 29th. He was 52 years of age, a native of Abbeville, one of her most popular and beloved citizens; one who was public spirited and useful, serving the people in many ways for the past 15 years, and to which office he was elected only a few months prior to his death.

He was a gentleman in manner, kind-hearted and true and won friends everywhere. For a number of years he was engaged in the mercantile business in this city, and for the past few years was in the cotton business buying for several large firms.

He died here last Saturday after the civil war, with Messrs W. J. and J. B. Rogers and has lived in our midst ever since, having all the time the highest esteem and good will of his people.

His funeral services were conducted at 6 o'clock Wednesday afternoon at Trinity Church of which he was a member. Interment was made in the Episcopal Cemetery in the presence of a large number of friends. He is survived by his wife and three sons survive him, and have the sympathy of the people of this city.

**NEWS ON ROUTE NO. 3.**  
On last Thursday evening Miss Clara Lee Gilliam entertained more than fifty guests at a lawn party given in honor of her charming guest Miss Katherine Whitney of Eufaula, Georgia.

The evening was spent in the enjoyment of many different games and charming music. The home was beautiful in its flower decorations within and without. Mrs. J. B. Harkness a sister of the charming hostess also had the pleasure of enjoying the evening with her friends having just recently returned home on her annual visit from Alabama.

After the games and pleasures of the evening delightful refreshments were served when all said adieu, and wished their hostess a happy goodnight.

Miss Julia Walker after a weeks stay with her sister Mrs. J. E. Riley of Piedmont returned to her home in Abbeville, S. C. on Monday. She was accompanied by her mother, Mr. and Mrs. R. P. McNeil and their little babe after a pleasant stay with their home people Mr. J. H. Penney and family and Mr. Thomas McNeil and family of Sharon left last Monday for their Alabama home accompanied by Master R. E. Bruce who left his Carolina home amidst great lamentation and weeping, leaving his grandfather sorrowful and sad.

Don't forget the big barbecue and picnic at Mann's Spring tomorrow (Thursday, August 2nd). You will find the place by turning to the first road leading to the right after you pass Gilliam's gin-house, 4 1/2 miles from Abbeville.

Mrs. J. S. Williams with several members of his family went to Little River last Monday after the "ferry" trip.

Miss Katherine Whitney of Eufaula, Ga., was unanimously elected principal of Lebanon School. There were five other applications from good competent young ladies which makes the election of Miss Whitney all the more complimentary. Miss Whitney is a graduate and comes with highest testimonials. The patrons are well pleased at her election.

Mr. Pam Shepard one of the handsomest young men spent a few days of the past week with his sister Mrs. Shepard and family in Sharon and Lebanon who will be glad to see him and give him a cordial welcome to his old "stamping ground."

Gilliam Bros. are pushing work on their glumery.

Waterman Fountain Pens, the best made at Milford.

## NOW IS THE TIME

TO SECURE SPECIALLY GOOD BARGAINS AT THE STORE OF

# L. W. White.

**The Summer** has begun and one would naturally suppose business would be light, but we do not propose to have it so. We intend to offer from day to day such bargains as will keep trade brisk and lively.

**OUR STOCK** is well kept up and we are still showing the most complete and attractive line of Goods suitable for Summer Waists and Dresses to be found anywhere. We have had a phenomenal sale of these goods, but we bought very heavily early in the season and the supply is still holding out.

We have never had such a sale of White Goods, and the main reason is we have the right kind of goods at the right prices.

Our stock of White Lawns is all that could be desired, and we have everything of the kind ranging in price from five cents to thirty-five cents a yard.

Laces and Embroideries are our specialty. Come to see them. We cannot describe them. They speak for themselves.

# L. W. WHITE.

**Saved His Comrade's Life.**  
"While returning from the Grand Army Encampment at Washington City, a comrade from Elgin, Ill., was taken with cholera morbus and was in a critical condition," says Mr. J. E. Houghland, of Eldon, Iowa. "I gave him Chamberlain's Colic, Cholera and Diarrhoea Remedy and believe saved his life. I have been engaged for ten years in immigration work and conducted many parties to the south and west. I always carry this remedy and have used it successfully on many occasions." Sold by C. A. Milford and H. M. Young, Due West.

**Bowel Complaint in Children.**  
During the summer months children are subject to disorders of the bowels which should receive careful attention as soon as the first unnatural looseness of the bowels appears. The best medicine in use for bowel complaint is Chamberlain's Colic, Cholera and Diarrhoea Remedy as it promptly controls any unnatural looseness of the bowels. For sale by C. A. Milford and H. M. Young, Due West.

**Locals.**  
Call for Naber's Ginger Ale. Made by the Abbeville Bottling Works. In 5 ct. bottles. When Naber's Ginger Ale and Celery Cola won't cure your indigestion hunt a doctor quick, for you are in a bad fix.

**Modest Claims Often Carry the Most Conviction.**  
When Maxim, the famous gun inventor, placed his gun before a committee of judges, he stated its carrying power to be much below what he felt sure the gun would accomplish. The result of the trial was therefore a great surprise, instead of disappointment. It is the same with the manufacturers of Chamberlain's Colic, Cholera and Diarrhoea Remedy. They do not publicly boast of all this remedy will accomplish, but prefer to let the users make the statements. What they do claim, is that it will positively cure diarrhoea, dysentery, pains in the stomach and bowels and has never been known to fail. For sale by C. A. Milford and H. M. Young, Due West.

**Crope Tissue paper so cheap that it will make you sorry for the man who sold it to you at Speed's Drug Store.**  
We are glad for you to smoke all the free cigars you can get. It will only make you appreciate Speed's Cigars the more.

**To freshen up your plastered walls, use ureoso, sold by Speed, it will not rub off.**

## HAVE YOU LEARNED TO BUY THE BEST? IT PAYS.

The school of experience will teach you, as it has taught us, that the best goods are the cheapest.

Our store house is new,  
Our goods are new,  
Our reputation is well known,  
Our motto is "THE BEST."

**Delicious Fruits,**

**Fancy Groceries**

To fit the taste of an epicure. Confections of all kinds.

**Buggies and Wagons**

Of the best makes at prices that will interest you.

# A. M. HILL & SONS.

Phones 36 and 126. Main and Trinity Streets.

## THE CITY Pressing Club.

When you have Pressing to be done send it to the City Pressing Club, room No. 1, Wilder's Block, at McKee's Store, Phone 139. We do the work right. Satisfaction guaranteed. If you will only give us a trial, you will be convinced. We want your work.

THE CITY PRESSING CLUB,  
Jessie & Duffie McKee, Prop.
